

MyLifePreserved offers you.....

TIME CAPSULE OF LIFE

MyLifePreserved is the most comprehensive and complete website that enables users to capture and store the personality, life events and accomplishments of an individual. In addition users can recount and share those personal stories and interactions of our loved ones lost, which will keep their spirit alive for all time.

CUSTOM BIO PAGE

Our custom BIO focuses on the key aspects that molds and creates each of our personalities. This information is the foundation that forms the structure of who we are. When linked together with the other aspects of this site a clear and concise picture is created of that individual that is preserved for the thousands of generations that come afterward.

CYBER GIFTS

We offer many cyber gifts that can be left to reflect our emotions at that time as a way to remember those that have passed. Each cyber gift can be scrolled over in order to view the person that left it. It will appear for 21 days before it automatically comes down.

MyLifePreserved Offers You

Exceptional services

MyLifePreserved is an online memorial that offers you a way to share with others that which was special to you about your loved ones. No website has ever been as dedicated to the preservation of the memories of people as MyLifePreserved.com. Others can see how you are remembering loved ones with an online memorial from My Life Preserved
